

PUBLIC NOTICE

Defense National Stockpile Center

ANNOUNCES AVAILABILITY OF THE

Final Mercury Management Environmental Impact Statement

The Defense National Stockpile Center (DNSC) announces the availability of the *Final Mercury Management Environmental Impact Statement* (Final EIS). The Final EIS analyzes three alternatives for managing DNSC's excess mercury: 1) consolidated storage of the mercury at one site, 2) sale of the stockpile and 3) no-action, i.e., leave the mercury at current storage locations. DNSC's preferred alternative is consolidated storage at one site. The Final EIS also presents public comments on the Draft EIS and DNSC responses.

**The Final EIS and the Executive Summary
are available for review on the internet
at www.mercuryeis.com and
at the following location:**

■ **Allen County Library**—435 Ann Street, New Haven, IN 46744-1279

*To obtain a paper copy or CD of the Executive Summary or the Final EIS
(about 1000 pages), please contact:*
